ABOUT US

*DAVIS INDUSTRIAL is an award winning,
privately held business located in Tampa, Florida.*

A proven industrial services leader which specializes in solution-driven conveyor maintenance, metal fabrication, and bulk material handling components. DAVIS INDUSTRIAL has an extensive inventory of world class products in stock, expert personnel, and the unrelenting customer focus needed to deliver reliable results, safely, every time.

OUR HISTORY

BMG and IPG became DAVIS INDUSTRIAL, offering complete conveyor system services, parts, and fabrication.

Established in 1970 with talented new management taking over in 2008. BMG officially rebranded to DAVIS INDUSTRIAL in February of 2017 in order to facilitate future growth and to realign BMG and IPG under a single brand. As DAVIS INDUSTRIAL, we continue expansion on all of our award-winning services while providing world-class products and expert personnel for our customers. DAVIS INDUSTRIAL will continue providing mission critical service 24 hours a day, seven days a week.

DAVIS INDUSTRIAL can assist from the ground up, whether it's building conveyors, replacing mechanical components, or splicing belts.

Our fabrication facility provides quality products and services to our customers at a cost effective price.

Our abilities extend not only to conveyor systems, but to any type of industrial metal fabrication and maintenance.

In Keeping with our tradition we have hired the finest in the business to assure that your project is completed correctly, efficiently and safely the first time.

LIGHTWEIGHT BELT SERVICES

- ✓ Conveyor Design & Fabrication
- ✓ Installation
- ✓ Vulcanizing
- ✓ Mechanical Splicing
- ✓ Belt Repairs
- ✓ Conveyor Components
- ✓ Preventative Maintenance

Our technicians are factory trained to work with all belts according to manufacturer's specifications—whether it's food, beverage, package handling, or distribution.

As a large distributor, we have access to many innovative

solutions including PVC, urethane and modular belting.

We have a full line of conveyor components available for all conveyor types and applications.

Offering expertise in a variety of services including vulcanizing, finger and mechanical splicing.

SPEED WALK CONVEYOR SERVICES

- ✓ Installation
- ✓ Vulcanized Splicing
- ✓ Tread Repairs
- ✓ Preventative Maintenance

DAVIS INDUSTRIAL is the premier moving walkway belt service company.

Offering installation, vulcanizing, preventative maintenance and belt repairs.

Our specialized equipment repairs damaged tracks to like-new condition to achieve greater wear life.

The repair process is very effective and has been performed at many facilities throughout the U.S. by DAVIS INDUSTRIAL.

CONVEYOR BELT VULCANIZATION

- ✓ Installation
- ✓ Vulcanizing
- ✓ Finger Splicing
- ✓ Mechanical Splicing
- ✓ Belt Repairs
- ✓ Preventative Maintenance

DAVIS INDUSTRIAL offers expertise in a variety of splicing methods including vulcanizing, finger splicing, and mechanical splicing.

Our technicians can permanently hot patch a hole in a belt up to 8" x 8". We can provide continuous improvement as well as training services.

We only use the most effective and dependable products to ensure a long lasting splice.

Our technicians do not take short cuts—splices are made to manufacturer's specifications.

GYPSUM BOARD BELT SERVICES

- ✓ Installation
- ✓ Vulcanized Splicing
- ✓ Precision Sanding
- ✓ Preventative Maintenance

DAVIS INDUSTRIAL is the premier gypsum wallboard forming belt service company. Offering installation, vulcanizing, preventative maintenance and belt repairs.

We understand the importance of creating a perfect splice the first time. One imperfection can mark the whole board and render the belt inoperable. Our specialized equipment sands

the surface of an existing board belt to remove imperfections up to 1/16" deep in the cover surface to achieve greater wear life.

This process is very effective and has been performed at many of the major wallboard manufacturer's facilities by DAVIS INDUSTRIAL throughout the U.S.

TESTIMONIALS

“ *[DAVIS INDUSTRIAL] performed excellent work for me at a great price. They are very personable, professional and trustworthy. You will not find a better company and group of employees to work with. I highly recommend their work.* ”

Kim Thompson, Vulcan Materials Company

“ *[DAVIS INDUSTRIAL] is a preferred vendor of ours. Their reliability and willingness to stock and get odd parts for our systems and operations is commendable.* ”

Don Johnson, Martin Marietta Materials

“ *I just want to say that you have a great group of guys there, very professional, very safety oriented and respectful. I am very impressed with their work and the way they all work so well with each other, great teamwork.* ”

Steve Stombaugh, SMR Aggregates, Inc
