

Belt Selection Worksheet

Follow this process to collect and provide the information that will allow Davis to help you select the best solution for your application. Experienced sales team members are just a phone call away. Knowledgeable field representatives are available when a site visit may be necessary.

1. If the current belting product is providing satisfactory service simply match a sample of the belt to a product in our catalog. If time permits, send the sample to us for identification.
2. If the name and manufacturer of the belting product is known, call us. We will cross reference to a quality Apache product.
3. If this is a new application, or if the current belt is not providing satisfactory service, then complete this survey to the fullest extent possible:
