

Screw Conveyors & Screw Feeders

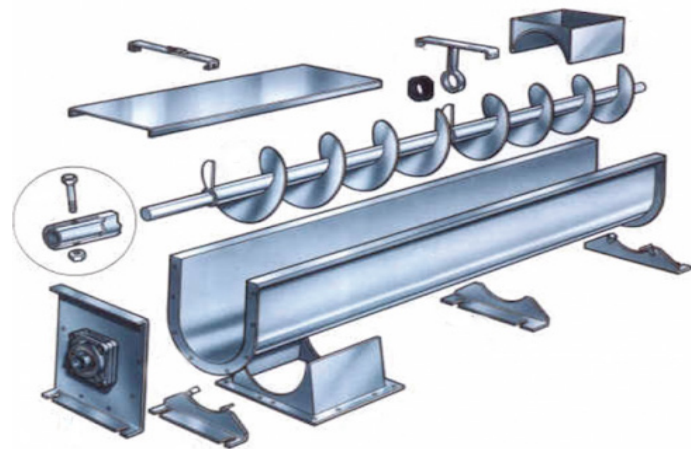

New Design & Replacement Components

Screw Conveyors are used to efficiently convey bulk materials from one process to another. Screw conveyors are very cost-effective and require minimal maintenance to operate. They are ideal for conveying dry to semi-fluid materials – free-flowing to sluggish and efficiently distribute bulk materials to various locations using multiple discharge points. They can be totally enclosed for corrosive or hazardous environments.

Replacement Parts Include:

- ✓ Conveyor Screw
- ✓ Couplings & Bolts
- ✓ Hangers & Bearings
- ✓ Trough Ends
- ✓ Troughs, Covers, Clamps & Shrouds
- ✓ Trough Liners & Discharge Spouts
- ✓ Drive components
- ✓ Support Feet & Components
- ✓ Carbon, AR, Stainless & Galvanized Steel

Davis Industrial has highly trained technicians available to help with your screw conveyor and mechanical maintenance needs.
